EDUCATION

• Indian Institute of Information Technology, Sri City, Chittoor

Bachelor of Technology (BTech) CSE

2021 - 2025

WORK EXPERIENCE

• Intellify

Full Stack Development Intern

Current

- Developed and maintained high-performance applications with Next.js and TypeScript for two pivotal websites, Build Fast with AI and EduChain, achieving a notable 20% increase in overall user engagement metrics.
- Implemented Supabase for CRUD operations, integrating APIs to fetch AI-generated data, improving data retrieval efficiency by 30%.
- Designed and optimized over 10+ web pages, enhancing UI/UX and functionality, resulting in a 15% faster load time and a 25% improvement in user satisfaction.

• CodeXIntern

Front End Developer Intern

Sept 2024 - Oct 2024

- Designed and optimized high-engagement, responsive interfaces using React.js, boosting cross-browser compatibility and increasing user engagement by 15%.
- Utilized React hooks and a component-based structure to enhance state management efficiency and improve code modularity, reducing development time by 25%.

PERSONAL PROJECTS

• NexiMeet :

🌐 Live-Site 🐙 GitHub

- Developed a full-scale virtual event platform with Next.js and TypeScript, integrating Stream for live streaming and real-time interactivity, resulting in a 30% boost in attendee engagement.
- Enhanced security with NextAuth.js and Firebase for authentication, reducing unauthorized access by 40%.
- Created event management features with role-based dashboards, facilitating seamless organization for over 100 live sessions.

• GoodWill :

🌐 Live-Site 🐙 GitHub

- Spearheaded development of a MERN stack (MongoDB, Express.js, ReactJS, Node.js) NGO funding platform, achieving a 25% boost in user engagement.
- Crafted an intuitive admin dashboard and responsive UI, increasing user satisfaction by 30% through enhanced navigation and accessibility.

• Anime/Manga Recommendation System :

🌐 Live-Site 🐙 GitHub

- Engineered a recommendation system with Flask and IR similarity algorithms, enhancing personalized recommendations by 25% and content discovery by 30%.
- Incorporated advanced features like document search and ranking, boosting engagement and retention.

TECHNICAL SKILLS

- **Programming Languages** : JavaScript, TypeScript, Java, Python, C++, C
- **Frontend Frameworks & Libraries** : ReactJS, Next.js, Tailwind CSS, Redux.js, Bootstrap
- **Backend & DevOps** : Node.js, Express.js, Django, Flask, Docker, Jenkins
- **Databases** : PostgreSQL, MongoDB, MySQL, SQLite, Prisma
- **Cloud & Authentication** : Google Cloud Platform, Firebase, NextAuth.js, Supabase
- **APIs & Tools** : GraphQL, REST API, Swagger, Information Retrieval Techniques

ACHIEVEMENTS

- **LeetCode** Solved over 300 questions and earned 5 badges as of Oct 2024.
- **Hacktoberfest Contributor** Successfully contributed to Open Source in Hacktoberfest 2023 and 2024.
- **Google Cloud Career Practitioner** Completed the program in October 2023
